

Gotta Get It Back 2014 S Furster

I don't wanna feel the way I feel when I
gotta be away from you... And
I don't wanna be the way I am when I
think and feel the way I do... now..
I don't wanna live like this no more and I'm
feeling lonely to the core...
And I'm telling
Anyone who'll listen, anyone at all...

I don't care about a fallin' star, if it
falls too far away from you...
I don't care about no gold and jewels
If I couldn't give 'em all to you...
I'd be tradin' all my happy days, just to
spend a single hour with you...
And I'm telling
Anyone who'll listen, anyone at all...

Gotta get it back, gotta get the summertime
Gotta get it right gotta get it now
Gonna find a way, gonna find the answers to
Questions of the heart before it breaks right into two..
Gonna take a train, maybe take the Number Nine
Gonna run all night, it's what I gotta do

My heart is ready, and I hear it sayin
It really wants to be with you...
Cause there's winter in that heart of hearts
And it needs a season that is new...
I'm feelin' kinda like a picture puzzle that's
Got some major pieces lost...
And so I'm telling
Anyone who'll listen, anyone at all...

Gotta get it back, gotta get the summertime
gotta get it right, gotta get it now
Gonna find a way. gonna find the answers to
questions of the heart before it breaks right in to two..
Gonna take a train, maybe take the Number Nine
Gonna run all night, it's what I gotta do
Gonna find a way, gonna find the answers too
Gonna take a ride that brings me back to you

Gotta get it back, gotta get the summertime
gotta get it right, gotta get it now
Gonna find a way. gonna find the answers to
questions of the heart before it breaks right in to two..
Gonna take a train, maybe take the Number Nine
Gonna run all night, it's what I gotta do
Gonna find a way, gonna find the answers too
Gonna take a ride that brings me back to you
