

No Harm Done Steve Furster 2014

Intro(4)G-D

No harm done
No harm done, we had a good run
And our time in the sun, no harm done

Gotta say the morning is lookin mighty fine
And all the birds are singing, they're sittin on the line
In the sun, no harm done

Since we begun
In the long run
There's no harm done
No harm done, no harm done

One by one
The days have become more than their sum
One by one

It's the kind of morning that puts you in my mind
It's when I can remember all the days we left behind
In the sun, In the sun

You added the best pages to the book of my life,
And like a book of recipes you added the spice...
To my life, You added the spice

Since we begun
In the long run
There's no harm done
No harm done, no harm done

One by one
The days have become more than their sum
One by one

If we'll never be again like all those days gone past,
The memories that surface, unbidden, unasked... they last..
Unbidden, they last.

As rain and tears will dry the same, the rising sun it shows
The time we spent together is time that we both chose
I suppose...I suppose.

Since we begun
In the long run
There's no harm done
No harm done, no harm done

No harm done, we had a good run
No harm done
